# MURDERS DIVORCED WIFE, WOUNDS MALE COMPANION AND IS HIMSELF SHOT DEAD

## CONCORD MAN SENDS BULLET CRASHING IN DEFENSELESS WOMAN

**Antone Williams Slays Former Spouse, Turns on Heel, Wounds Jeweler, and Then Drops With Three Missiles in Body**

After shooting and killing his divorced wife at Concord, Contra Costa county, this morning, Antone Williams, a resident of that place, wounded Philipp Roach, who is said to have been the woman's companion of late, and was shot to death by Roach, who fired three bullets into the murderer's body.

Williams left his home this morning determined, it is said, to find the woman who divorced him on May 2d, and to demand her return to him, or to have her life.

At 10:30 o'clock he located her in the Concord Mercantile store. When he made an attempt to address Mrs. Williams he was ignored, the woman walking away.

### Opens Fire on Woman.

With an oath the man opened fire, his victim dropping dead at the first shot.

Williams made no attempt to see the result of his work, but heaping maledictions on the dead woman's head, left the place, proprietor and clerks being too dazed to interfere.

The slayer turned the corner and made for the jewelry store of Joseph Roach, a block away. He entered the shop and seeing his quarry behind a counter, drew his revolver and fired.

### Crawls to Get Pistol

Roach tried to drop behind the counter before Williams shot, but was not quick enough, and received a bullet in his left arm. He remained quiet, however, stealthily crawling on the floor to a drawer in which reposed a revolver.

With the weapon in his possession he leaped to his feet and confronted Williams, who stood with pistol raised.

The jeweler fired first and Williams dropped. Roach sent two more shots crashing into his body before it reached the floor, but the first had done the work, and Williams was dead.

By that time a crowd had gathered in front of the store and Roach turned over his weapon to a constable. Later he went to Martinez and gave himself up to Sheriff Veale.

News of the tragedy was carried to the aged parents of the dead woman, and a pathetic scene was enacted in the store when the couple were led to the body.

### Throws Herself on Body

The mother threw herself on her dead daughter and it was with difficulty that she was dragged away.

The tragedy was the culmination of a turbulent domestic life, led for many months by the Williams. The husband was extremely jealous and is said to have made frequent accusations against his wife's alleged intimacy with Concord men.

On March 10th the woman sued for divorce, and the decree was granted May 2d. Since then Williams has made repeated demands on her to return to his roof, but was ignored.

Recently he is said to have made threats and to have re-

## COUPLE DRUNK AND NAKED DANCED ON LAWN

**Peasants Declare Mary Castle Charlton and Husband Had Wild Orgies.**

### "DANCE OF THE DEVILS" THEIR CHIEF DIVERSION

**Played Tag in "Altogether" and Hurlled Furniture Through Windows.**

COMO, Italy, June 14.—Like splashes of brilliant crimson on the black pall of tragedy which enshrouds the death of Mary Scott-Castle-Charlton, sensational tales of wild orgies, bacchanalian dances when the pair, wholly nude, cavorted on the lawn in front of the little villa where the murder was committed; mad games of tag and terrible quarrels are cropping out, and tales brought to the police by natives who know the ill-fated pair tell of a life of drunken revels and ungoverned passions.

A faggot peddler and Rosa Riva, the Charlton's washer woman, both made formal statements to the investigating magistrate today. Both assert that on more than one occasion they saw young Porter Charlton and his wife doing what they termed "the dance of the devils" on a lawn partially secluded by clustering rose vines. Naked they rolled on the green grass in saucy-like poses, according to the two witnesses, to arise at intervals and trip up and down the sword path in hand, stinging ribald battles and laughing hysterically.

### PLAYED TAG IN ALL-TOGETHER.

The washer woman they were seen playing frenzied games of tag, when they pursued one another in and out among the trees, and sometimes in filthy nightgowns, but more often in nothing at all. Occasionally Charlton would overtake his wife and a wild tussle would follow. After sumptuous dinners the pair spent whole nights on the piazza overlooking the lake. It is said, and repeatedly the woman was discovered by one or another of the simple fishfolk of the village lying in a drunken stupor just inside the gate.

Residents of the better class passing the Charlton villa declare that they were startled one day to see a gold framed mirror and a broken chair some hurrying through the window to the accompaniment of a woman's screams. Seeing familiar with the customs of the couple, they made no attempt at investigation.

### WAS KILLED JUNE 6.

It has now been ascertained that Mary Charlton was killed on June 5, her body stuffed into the trunk, together with the letters and documents found on the scene that day, and the whole cast into the lake of Como, where it was found four days ago. On the afternoon of that day Porter Charlton and the Russian Constantine Isidoroff, who is now under arrest on suspicion, were seen talking together. An added note of mystery is injected by the verification of the fact that they were not alone. A woman, heavily veiled, who registered at Hotel Metropole as Effie D. D. and who disappeared almost immediately after the finding of the body, was with them.

The police are making heroic efforts to locate this woman, and pretended to be German, had, it is said, all the appearance of an American.

### ONE OF FIRST TO SEE BODY.

On the day the trunk was fished up she was among the first on the scene to view the ghastly find, but fled when she saw the police approaching. On the next day the strange woman was seen in Concord, where she ate and drank in the restaurant and asked: "Has the assassin been arrested?"

When informed of the Russian's arrest she showed consternation, left abruptly and has not been seen since. So the Hamburg police have been asked to investigate.

Four days later a fisherman of Carateario dragged up from the lake the trunk containing her body. The autopsy showed she was bitten to death with a carpenter's nail and that she was dead when sunk in the lake.

How was that trunk removed by

## Hamilton to Challenge All Records of Paulhan

LOUIS PAULHAN, the aviator, whose honors are in danger because of Charles K. Hamilton's achievements.

## VOTERS FREE OF PARTY ARE DENIED A BALLOT

**Complaints Made at City Hall and to County Clerk Cook, but Nothing Could Be Done; They Will Have Opportunity Later**

Voters of the city who are not affiliated with either the Republican or Democratic party were barred today under the new direct primary law from exercising their casting of their ballots, as a consequence many of them are deeply aggrieved with indignation.

This is the first time that the direct primary law has been in operation and the trouble into which the election was thrown through ignorance of the provisions of the law created all kinds of trouble at the various voting booths and brought down upon the heads of the municipal officers the imputation of prohibition. Socialists, Union Labor and other outside voters who had no "freeholders' ticket" in the field.

They stormed the voting places for recognition, but were denied their right to appear at the city hall for address, but could get none. As a last resort they went after County Clerk Cook to see if he could remedy the situation.

The latter official had a voice of deputies on duty a search as to what to do with all questions with reference to the law and during the day a telephone and personal calls of outraged citizens were constantly answered, but in most instances not as courteously as acknowledged. The whole trouble with the voters who were not allowed to vote was that the parties they represented had failed to obtain representation on the official freeholders' ballot. This barred them from voting, because the only parties repre-

## AVIATOR SEEKS MORE AERIAL ACHIEVEMENTS

### Dirigible Escapes With Young Flyer

NEW YORK, June 14.—Another aeronaut loomed up today, this time in a dirigible balloon. Fred Owens, a 20-year-old resident of Belleville, N. J., brought business virtually to a standstill in Lower Manhattan by suddenly appearing in his airship flying across the Hudson river, and then attempting to land his craft in City Hall Park.

Owens found that landing had its elements of hazard, as well as those of flying. His dirigible became unmanageable in the air currents between the City Hall and the county court house, and the framework of the gas bag bumped a chimney on the county court house, bending the frame and putting the proper out of business. The aeronaut threw out a rope and tried to land, but the gas bag shot upward and the dangling rope eluded a crowd of onlookers, the aeronaut and his unmanageable dirigible floating away in the direction of Brooklyn.

The helpless dirigible, gradually rising, floated across the East River and when almost over the City Hall in Brooklyn, apparently reached a lava of still air. It hovered for some time directly over the Brooklyn business section, and then began a slow drift toward Lower Manhattan.

Owens concluded his morning's flying ventures when his airship landed in a shade tree in the Bushwick section of Brooklyn. He lowered the anchors, which caught in the branches of the trees and relief parties were summoned and ladders were raised to take off the aeronaut.

Through the air valley only one bridge is left standing.

The floods were caused by a heavy rain that had continued for several days, causing the River Ahr to break its bounds.

Sunday night there was a cloudburst and the waters choked the valley, drowning every living creature in their path and causing immense material damage. Two barns in which 2000 and 3000 cattle and horses were housed were swept away and their occupants who were in their beds, were drowned.

The railroad was washed out and several villages were isolated. Lightning which accompanied the rain did much damage.

## HAMILTON HAS DESIGNS ON PAULHAN'S RECORD

**His Flight Falls a Few Miles Short of Frenchman's for Distance.**

### WOULD HAVE BETTERED IT BUT FOR ACCIDENT

**Had Intended to Make Circuit of Manhattan Island on Arriving.**

NEW YORK, June 14.—The United States Court of Appeals late today dissolved the temporary injunction against Glenn H. Curtiss and Louis Paulhan, the French aviator, in the suit for infringements on aeroplane patents begun against them by the Wright Company, controlled by the Wright Brothers.

TOPEKA, June 13.—J. P. Mars announced today that he would attempt to fly from Topeka to Kansas City tomorrow morning in his Curtiss biplane for a prize of \$5000. He expects to travel the sixty-seven miles in three hours, including stops.

NEW YORK, June 14.—Charles K. Hamilton, the young aviator, who yesterday flew to Philadelphia and return, is today looking for more aerial spaces to conquer. Hamilton is known to have one great ambition. It is to beat the record Paulhan established for a continuous cross-country flight.

That 117 miles without a stop made by the French aviator in his journey from London to Philadelphia and return, is today looking for more aerial spaces to conquer. Hamilton is known to have one great ambition. It is to beat the record Paulhan established for a continuous cross-country flight.

Through the air valley only one bridge is left standing.

The floods were caused by a heavy rain that had continued for several days, causing the River Ahr to break its bounds.

(Continued on Page 2)

## TWO HUNDRED LIVES LOST IN FLOOD

**Ahr Valley Swept by Cloudburst and Every Living Creature Carried to Death.**

COLOGNE, Germany, June 14.—It is estimated that 200 persons lost their lives in the flood that swept the valley of the River Ahr in the Rhenish region. Eighty-seven bodies had been recovered today. These were found along the river banks.

A report received here says that after flood waters were lost at the village of Soltau when a bridge crowded with persons watching the turbulent waters was carried away.

Through the air valley only one bridge is left standing.

The floods were caused by a heavy rain that had continued for several days, causing the River Ahr to break its bounds.

Sunday night there was a cloudburst and the waters choked the valley, drowning every living creature in their path and causing immense material damage. Two barns in which 2000 and 3000 cattle and horses were housed were swept away and their occupants who were in their beds, were drowned.

## Congressman Duncan McKinlay Believes San Francisco Will Win

Washington, D. C., June 14, 1910.

W. E. Dargie, Oakland, Cal.  
I and all friends I can influence as well as delegation are using every effort to secure from foreign relations committee favorable report before adjournment. Think we will be successful despite strong opposition from exposition committee.  
D. E. MCKINLAY.

## Sale of \$25,000,000 Bonds For Railroad Is Completed

NEW YORK, June 14.—Kuhn, Loeb & Company today announced the closing of negotiations for the sale of \$25,000,000 of Southern Pacific Company, San Francisco terminal, first mortgage of 1 per cent bonds to a European syndicate.

It is said that the bonds are to be issued to reimburse the Southern Pacific Company for money expended in acquiring terminal properties in San Francisco.

until it flew, when it increased a third of the bulk of the ball in a raised shot. Where several clumps of its toes were also found.

And the warden? "His pallo had been in the other fragments of mail found in a tank," he said. A letter written by Mrs. Clayton to her first husband, Newell Clayton, 1914, is also full of protests of love, devotion and wish to be with him. It is dated 1914, and is for her in a package of a letter sent January 14, 1914, 50 years ago, or so, to her. She says at the H. H. S. 800, when Clayton left her was an indication of how far he had come, and a

**SEARCH FOR MAN'S BODY.**

On the supposition that Helen was still alive, the search for her body was carried on. The work was started in the vicinity of the spot from which the flight of the plane was made.

He did not look too closely before the search was made and he found the finger in the corner of a mud room. This was the only place where he found any others in the vicinity who had seen the fashions, and some of these declared at once that it was part of a suit which the victim might have had worn.

When a witness who had seen a murder through a window, it was learned that the murderer had determined that to show up which the trunk was weighed had been taken from the wall.

The stone had been moved from a spot in the wall to the point at which the trunk was hanging.

Although the police discovered the trunk, they did not find any other evidence in the vicinity. The trunk had been recently dug out of the wall, and it would be so different, so that some has not been

## MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Baby's coming will be a time of rejoicing, and not of apprehension and fear, if Mother's Friend is used by the expectant mother in preparation of the event. This is not a medicine to be taken internally, but a liniment to be applied to the body, to assist nature in the necessary physical changes of the system. Mother's Friend is composed of oils and medicines which prepare the muscles and tendons for the unusual strain, render the ligaments supple and elastic, aids in the expanding of the skin and flesh fibres and strengthens all the membranes and tissues. It lessens the pain and danger at the crisis, and assures future health to the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

## OIL INDUSTRY NOW IN GREAT ERA OF STORAGE

Curtalement of Development Is Found Necessary by the Producers.

CALLS ATTENTION TO GIGANTIC RESOURCES

Many Tanks Have Been Ordered by Companies of the South.

LOS ANGELES, June 14.—The oil industry of California has entered an era of storage and curtailment of development.

This statement is not to be construed as depressing in significance. On the contrary, it serves to call attention once more to the gigantic oil resources of California and the unparalleled energy with which they have been developed during the current period of activity in production and transportation.

At the same time, it is an acknowledgment of the fact that the oil resources of California are so vast that it is necessary to curtail development in order to make the most of the resources.

Many tanks have been ordered by companies of the South.

## The Lakeview Gusher

On March 15, 1910, the well on fractional section 25-12-24, Sunset-Midway field, came in as a gusher.

From the start the well has produced in excess of 50,000 barrels of oil a day.

The daily production of the Lakeview gusher alone equals the entire production for the same time of any other California field.

Entire transportation facilities of the northern oil fields unequal to the task of handling this one well's production, and millions of barrels of oil are now held in the hastily constructed earthen reservoirs subject to large waste from evaporation and seepage.

From March 15 to May 1 the Producers' Transportation Company handled through its pipe line 50,000 barrels of oil from the Lakeview.

Including today the Lakeview gusher has been flowing for eighty-seven days, and, estimating the daily production at 50,000 barrels, the output has been 4,350,000 barrels. At 50 cents a barrel the money value of the well's production would total the enormous sum of \$217,500,000.

At the same time, it is an acknowledgment of the fact that the oil resources of California are so vast that it is necessary to curtail development in order to make the most of the resources.

Many tanks have been ordered by companies of the South.

LOS ANGELES, June 14.—The oil industry of California has entered an era of storage and curtailment of development.

This statement is not to be construed as depressing in significance. On the contrary, it serves to call attention once more to the gigantic oil resources of California and the unparalleled energy with which they have been developed during the current period of activity in production and transportation.

At the same time, it is an acknowledgment of the fact that the oil resources of California are so vast that it is necessary to curtail development in order to make the most of the resources.

Many tanks have been ordered by companies of the South.

LOS ANGELES, June 14.—The oil industry of California has entered an era of storage and curtailment of development.

## HASKELL THREATS DRIVE DEPUTES TO GUTHRIE

Guards Prevent the Removal of State Documents to Oklahoma City by Force.

HEARING IN CAPITOL REMOVAL CASE TODAY

Battle to Be Waged in Courts to Decide Legality of the Action Taken.

GUTHRIE, Okla., June 14.—Two deputy United States marshals who returned here this afternoon from Oklahoma City, reported that Governor Haskell threatened them when they attempted to serve upon him the order of Federal Judge Cotter for him to appear here next Friday.

The United States marshal here has held the matter before Attorney-General Wickersham.

GUTHRIE, Okla., June 14.—Twelve deputy sheriffs have been sworn in and placed about the State house to guard against the removal of the State records to Oklahoma City, where Governor Haskell has established headquarters.

Charles Dougherty, State Labor Commissioner, when leaving for Oklahoma City today was stopped by an officer and the contents of his suit case examined before he was permitted to proceed.

Despite these steps taken by the faction opposed to removal, the removal of the State records to Oklahoma City was not prevented today that all State books and records would be moved to Oklahoma City upon completion of vaults for their reception.

The hearing on Governor Haskell's demurrer to the order of the county district court restraining the State officers from removing the capital to Oklahoma City was set for this morning, but owing to the delay in the arrival of Attorney General West it was postponed to this afternoon.

With almost 800 delegates in attendance the Grand Parlor, Native Daughters of the Golden West, convened in its twenty-fourth session with Grand President Lillie in the chair.

Today being "Flag Day," the opening exercises were of a patriotic nature. The grand president paid a tribute to the national emblem, and the convention closed in singing "The Stars and Stripes." Reports of committees occupied the balance of the morning session.

Grand President Mrs. Lillie read her report at the afternoon session and at its conclusion the Grand Parlor adjourned for the day, the delegates acknowledging the guests of the Santa Barbara Automobile Club for a ride about the city and to Montecito. They were tendered a reception later at the Potter Country Club.

Santa Barbara is gay with flags and bunting in honor of the visit of the Native Daughters. Each arriving delegate has been given a hearty welcome. When a special train pulled in from the north last night bearing the representatives of the national organization, it was met by a band and escorted by a detachment from Reina Del Mar Park to Grand Parlor headquarters.

It is expected that an interesting contest will develop on Thursday, when grand officers for the ensuing year will be elected. There is an already friendly rivalry between Laura J. Hines, the present grand secretary, who hails from Santa Clara county, and Anna Tucker of Orinda county, San Francisco, a candidate for the position of grand president.

Charles M. Beshaw will be the principal speaker this evening at a reception to Native Sons and their wives, daughters and children. His subject will be "Children's Agency."

## TWO DOLLARS

At a regular meeting of the board of directors of the California Alfalfa Meal Milling Company of San Francisco, California, a resolution was passed advancing the price of their stock from One Dollar to Two Dollars on June 15, 1910. This advance in price will be made preparatory to listing the stock on the San Francisco Stock Exchange on July 15, 1910. On and after June 15, 1910, no stock will be sold for less than \$2 per share. The enormous profits, together with the assets of this company, justify and demand this increase.

## Bankers Are Buying Our Stock

WHAT'S THE ANSWER?

The "wise ones" are withdrawing their money from the savings bank and investing it with us.

## COMING CALIFORNIA INDUSTRY

### ALFALFA MEAL MILLS

Over a hundred mills in Kansas. There's room for 500 mills in this State. Five in operation in California. We are building three and want money to build three more for this season. Alfalfa is a "cockatrice" crop. It never fails. We have contracts that will sell the output of ten mills. The demand for Alfalfa Meal can't be supplied on this coast.

An Alfalfa Meal Mill now operating in this State shows a profit of \$170.00 for 10 hours' run. We can prove this one.

Would you like to share in the immense profits of this company? If you would, investigate this company and this business. There are over one hundred Alfalfa Meal Mills in a very small section of the State of Kansas that have made millions for the Kansas farmers and investors.

# GIRL FRIGHTENED BY BOLD BURGLAR

**Intruder Seizes Her Arm as She  
Is About to Turn on  
the Light.**

HAYWARD, June 14.—Arising from her bed to investigate a mysterious noise which she heard in the house last Saturday night, Miss Hattie Patterson, aged 32 years, who lives in Castro street in this city, was so frightened that she fled in terror when her room was grasped in a fiery grip by a tall masked man just as the young woman was reaching up to turn on the light.

The girl says she was so frightened that it was impossible to make any outcry and that the intruder stood peering into her face for fully two minutes before she released her. No word was spoken by either.

The girl then fled to her room, where she quickly dressed and went to the residence of her father, where she was in an adjoining room, but the burglar had made his escape by a rear window.

Burglars took advantage of the fact that a large number of the residents of this city are away on their annual summer holiday festival and the attempt on the Patterson residence was the last of four burglaries committed here Saturday night. Two men who were acting in a suspicious manner, are thought to be responsible for the burglaries. One is

The first place entered was the home of J. W. Buge in Castro street, shortly after 8 o'clock. A valuable stick pin and a gold watch were taken.

# STOCK MARKET SHOP IS CLOSED

**Merchants' Stock and Grain Company Suspends in St. Louis.**

ST. LOUIS, June 14.—The Merchants' Stock and Grain Company notified its customers today that no further trading would be made in stocks, grain or provisions.

Recently Frank J. Minor, manager of the concern, was convicted on a charge of conducting a "hot" shop. The official closing notice reads:

"Owing to contingencies, arising at trades will be closed today."

The Western Union Telegraph Company which furnished the service to the company, issued an order several days ago withdrawing its wires from all alleged "bucket" shops.

and the Merchants' was the only one in this city which continued operations.

ST. JOSEPH, Mo., June 14.—Walter Sanders, 79 years of age, died at his home here today. He was an old plainsman and was engaged in many battles with Indians while freighting between St. Joseph and Denver before the days of railroads. He was pioneer Missouri river hardware merchant.

# WOLVERTON SIGNS UP A NEW OUTFIELDER AND PITCHER

## Oakland Has a Royal Chance of Landing in First Place Today

### WESTERN ATHLETES WORRY OVER CONFERENCE RULING

#### Stanford and California Fear Three Year Agreement Will Work Hardship at Next Meeting

That Stanford and the University of California track teams, in endeavoring to win the championship of the annual conference meet between the Middle West colleges, are handicapped by the interpretation of the eligibility rules, is the complaint voiced by those who have assisted in the Pacific Coast representation at these games. For three consecutive years Stanford has figured in second position, with the honors distributed among the Chicago, Illinois, Wisconsin, Notre Dame and Cardinal athletes, while at home there were enough prize winners, from the students, who, if allowed to compete, might have brought the major trophy of points farther west on a last one occasion.

The experience of the Stanford team, which has so ably represented the competitors of the conference, led them, after a three days' trip into a complete change of climatic conditions, to the conclusion that the championship of the conference is to be decided by the rule which has worked such a handicap on the California teams in the past years, and at the same time prevents the Stanford team from taking part in the annual meet. Stanford and California, in their arrangement, allow first year students to take part in a relay race, but a hard agreement which has no relation to the Middle West situation, Stanford and California students are at a loss to understand why a meet between the California and the Middle West teams should be held in a year in conference sport, which has been the case in several instances.

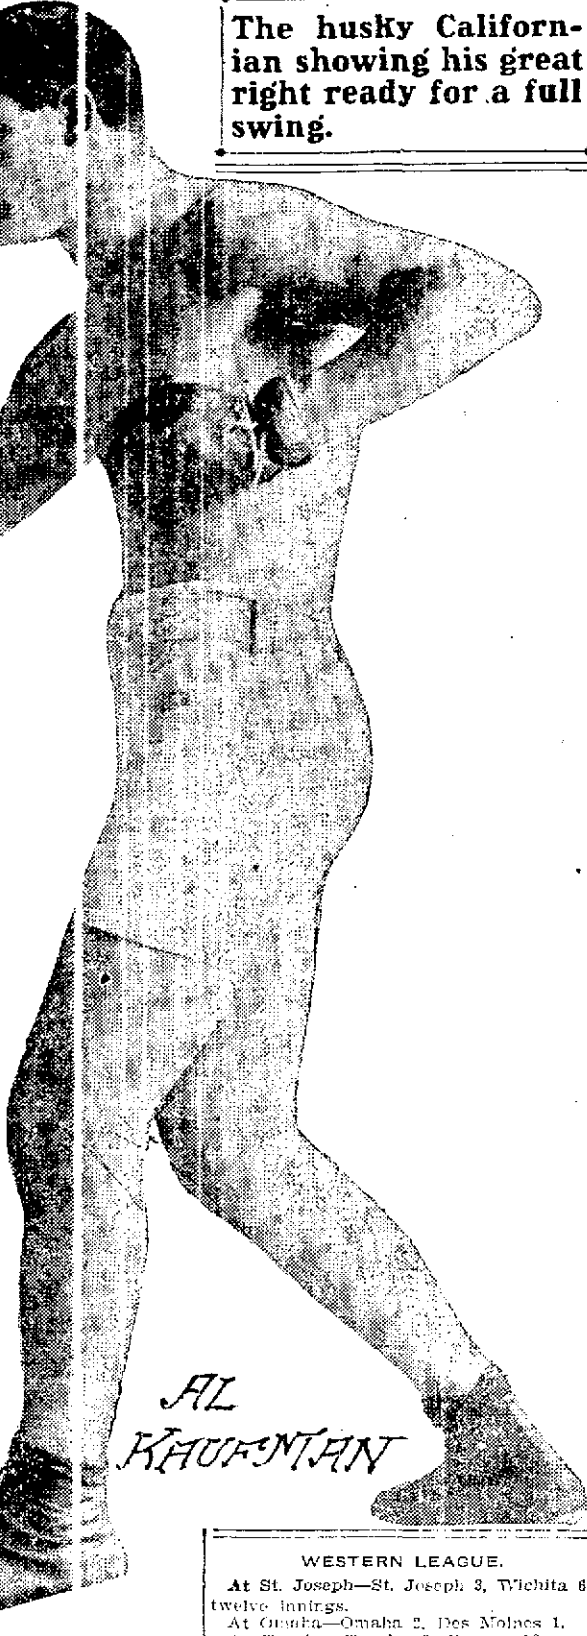

If a student at the California university competes in various athletics during his first year at college, there is no reason why he should not take part in the conference sport, for his participation in the Stanford-California track meet is considered as a part of college athletics, and at the same time he is not permitted to be an assistant at the conference meet.

The result of this condition of affairs, according to Stanford, with a term of two years' study, has been that the California team has been unable to take part in the annual meet, and the Stanford-California track meet has been held in a year in conference sport, which has been the case in several instances.

### OAKLAND TEAM SIGNS OUTFIELDER CAPRON

#### Manager Wolverton Also Signs a Pitcher, and Says He Must Have That Pennant

Manager Wolverton of the Oaks has signed another outfielder, George Capron, who was a member of the champion Seattle team of the Northwest League last season. This year Capron has been playing with Vancouver in the Northwest, but his salary was too high for that circuit and he was given his release. The fact that Capron was a free agent was noted by the Oakland manager, by Carl Lewis, the former Oakland catcher who is now with Vancouver. In his wife Lewis declares that Capron was the greatest hitter on the coast, being a hardy slugger in the outfield. Capron led the Northwest League last season in home runs hit. He is said to be very fast on the bases as well as a great pitcher. Transportation has been wired Capron and he has been ordered to join the Oaks at Sacramento.

all considerable strength to Dillon's twirling staff. Capron is a left-hander and is said to be a high-class man.

The long jump from Portland to Los Angeles makes it impossible for Capron to make his team to play Vernon this afternoon, but the Oaks will be on hand tomorrow at the southern grounds and a series that promises to be full of scrapy playing.

Manager Wolverton is within close striking distance of the leaders and it wouldn't take many victories to put the Oaks back in the place at the top which they held for a while a month or so ago.

Manito Hildebrand will remain here to continue the series on the local grounds. Finner will go to Sacramento, and the important series at Los Angeles between Vernon and Portland will be judged by two umpires, McGreevy and Van Halton.

Another new player has been signed by Manager Wolverton—Red Green, a young giant of South Vallejo, who has been creating a sensation around the bay town by his fine pitching. Green will not report until next season, as he is employed in the flour mills at South Vallejo and does not want to give up his job until he has finished learning his trade. Green came down from Vallejo yesterday and worked on under Manager Wolverton's eye at Finner's Park. The youngster showed a world of speed and a great curve ball. Manager Wolverton predicts a fine future for him.

Pitcher Ralph Willis, whose release has been secured by the Oaks and from Francisco, signed his contract with the Oaks yesterday afternoon and expressed himself as delighted with the team. He declared he would work his head off for Oakland.

The Oaks left for Sacramento this morning, accompanied by Foster Doolley, who declared that he would do his best to help the Oaks get to first place and take the lead in the pennant race. Catcher Thomas and first base Danke were left at home.

San Francisco and Los Angeles are the competitors in this week's series in the first half of the season. The Oaks have been playing since the beginning of the season in the Pacific Coast League, may not be able to play this afternoon. He was off on the 12th, but a pitched ball in Sunday afternoon's game and his arm pains him so much that it may be several days before he can use it.

The Los Angeles pitchers are in better shape now than when they were here two weeks ago, and they are a hard nut to crack. Capron, the new outfielder, is expected to report to the local manager next week.

### Hayward's Collis Win From San Leandro Team

The first game of the series in the Central California League, Class D, was witnessed at Hayward Sunday afternoon by a large body of fans. The game was between the Hayward Cubs and the San Leandro team, and it was a hot one. The grandstand and bleachers were packed and the going around for the first inning.

San Leandro was up first, and retired with no score. The Cubs in the second half of the first inning scored, first came home on a hit made by Tim. The game then ran up and took up the first half of the fourth inning.

San Francisco and Los Angeles are the competitors in this week's series in the first half of the season. The Oaks have been playing since the beginning of the season in the Pacific Coast League, may not be able to play this afternoon. He was off on the 12th, but a pitched ball in Sunday afternoon's game and his arm pains him so much that it may be several days before he can use it.

### Great Reception Is Tendered to Rugby Team

#### Sydney People Turn Out En Masse to Greet All-American Players.

SYDNEY, N. S. W., June 11.—The combined American university team of Rugby footballers arrived here today and were formally welcomed to the city by the members of the New South Wales Rugby Union. The reception held later in the day President Colver welcomed the team on behalf of the union, and said that the tour was more than that of an athletic contest, and would considerably augment the already good feeling existing between the two great countries.

The American team spoke along the same lines, expressing on the fact that this was practically the first American team to go on tour to play football games, and expressed confidence that they would give the Australians a good run for their money.

Manager Burbank, in replying for the team stated that Sydney was to American footballers of the Rugby code what Sydney had been to the Australians. He did not want to say that his team would defeat the Australians this time, but declared they had come to learn the game and, win or lose, he was certain that their opponents would be satisfied that they had a good set of sportsmen as competitors.

Sacramento	22	47	.319

VERNON, June 14.—The Oaks' "every one a champion" has in a 10th game getting the long end of the rope in the first game of the series with the Senators today, but a home run by Fitcher Brackenridge in the seventh with one on clinched the game.

Whelan, who is the real hard luck pitcher of the league, was getting along excellently until that frame even if the home were hitting his delivery hard. The Senators left last night 1-0 home, before they are to tackle the Oakland pitchers for a week's series. Following is the score:

Club	W	L	Pct.

# TOO MANY DUTIES PASTOR RESIGNS

---

**Rev. John Morison Declares He  
Couldn't Do More Than  
Be Minister.**

---

CHICAGO, Jan. 14.—(Associated Press.)—Rev. John Morison, pastor of the First Baptist Church, announced today that he was resigning his position because he felt he could not do more than be a minister. Morison, who has been pastor of the church for 14 years, said he was resigning because he felt he was overburdened with the many duties of his position. He said he was resigning because he felt he was overburdened with the many duties of his position. He said he was resigning because he felt he was overburdened with the many duties of his position.

At his old Mortuary with a part of the  
First Presbyterian Church, he oldest
